The following pages contain a sample chapter section from the book.
**Analogy**

Publisher: Nth Fusion LLC – http://apps.nthfusion.com/

Device: iPad, iPhone  
Price: $0.99

Four images are displayed on the screen with directions that instruct the user to tap the multiple-choice answer image to complete a pattern. Or, one can drag and drop the multiple-choice answer image to complete a missing pattern.

If a correct answer is chosen, a green screen is displayed and a positive sound is heard. If an incorrect answer is chosen, a red screen appears, no sound is heard, there is a pause, and the correct answer is displayed. Toggle the sound Off/On by tapping on the speaker icon in the upper left corner.
Art

Publisher: http://ads-sg.com/

Device: iPad
Price: Free, $5.99

Enjoy great art and learn about 15 artists (300 artists and 6000+ pictures in the upgrade) and their biographies. Links to external web sites are available to learn more about the artist. A “Who Is The Artist?” Quiz game is included. Images from web sites can be saved to the gallery. The user has the option to load images into the photo gallery for use in other applications.

Because many great works of art contain nudity and/or violent images, parental controls can be used to hide selected images from display.
